Choose the type of installation [Help]

Choose the base for the installation.

☒ (X) Ubuntu Server

The default install contains a curated set of packages that provide a comfortable experience for operating your server.

☐ () Ubuntu Server (minimized)

This version has been customized to have a small runtime footprint in environments where humans are not expected to log in.

Additional options

☐ [] Search for third-party drivers

This software is subject to license terms included with its documentation. Some is proprietary. Third-party drivers should not be installed on systems that will be used for FIPS or the real-time kernel.

[Done]

Guided storage configuration [Help]

Configure a guided storage layout, or create a custom one:

(X) Use an entire disk

[/dev/sda

local disk 25.000G ▼]

[X] Set up this disk as an LVM group

[] Encrypt the LVM group with LUKS

Passphrase:

Confirm passphrase:

[] Also create a recovery key
The key will be stored as ~/recovery-key.txt in the live system and will be copied to /var/log/installer/ in the target system.

() Custom storage layout
